

Club Safety Policy: Oxford University Cave Club

[current status (June 2026): issues that remain to be finalised after discussion with OUSF: (1) Personal accident insurance ; (2) "coaches and trainers" (3) notification of normal club caving trips.]

Introduction

- 1) Oxford University Cave Club (henceforth known as 'the club') is totally committed to the safety of its members. For the current academic year, and all future academic years, the clubs' activities operate in accordance with this document, the clubs risk assessment(s), the [University Regulations for the Activities and Conduct of Student Members](#) and the guidelines of any National Governing Body that the club is affiliated to.
- 2) This policy relates to the physical safety of club activities and club members within those club activities. Any issues relating to the behavior of specific club members should be addressed through the club's Code of Conduct.
- 3) The club is affiliated to the British Caving Association (BCA), the sport's National Governing Body (NGB). The club acknowledges that it is the club's responsibility to ensure that its current activities adhere to the regulations and guidelines of the BCA. Support and guidance are also available via the Sports Safety Officer.
- 4) This policy is updated at least once a year, for the beginning of the academic year. An updated version of this document is submitted to the Sports Federation at least once per academic year, through the club handover process, and is subsequently updated immediately, and re-submitted (via safety@sport.ox.ac.uk) should any changes be required. This is a live policy relating to all club activities and is updated frequently.
- 5) The updated version of this document, and all other club documentation, is made available to the club's members via the club's website. This is also updated immediately, when changes are required.

Overview of Activities

Weekly Activities (term-time only)

Day	Time	Location	Sessions Name and/or Description
Roughly 4x per term.	Whole days or Weekends	Caves	Caving trips to caves in the UK (South Wales, Mendips, Devon, Yorkshire Dales, etc.) The trips are usually two days, taking the whole weekend, or may be day-trips. The exact dates and locations depend highly on weather and availability of transportation, and will vary term by term.
Weekends	2-4 hours in a day	Oxford	Surface SRT training. The occurrence depends highly on demand.

Annual Events

Approximate Date (e.g. Week of Term)	Approximate Time	Location	Event Name and/or Description
Sometime in Trinity term	Evening	A restaurant	Annual Dinner Time varies year by year.

Annual Trips / Tours: N/A

Risk Assessments

- 6) All club activities are appropriately risk-assessed by the club. The club maintains up to date and accurate records of its risk assessments, so they can be immediately referred to should an accident, incident or near-miss occur. The clubs also maintain records of any changes made to those risk assessments (including the dates any changes were made) to be referred to as and when required. Support with conducting risk assessments can be requested through the Sports Safety Officer, who will also review all clubs' risk assessments periodically and provide feedback.
- a) Risk assessments for regular club activities are included as appendices to this policy, which will be updated when changes are required. Such risk assessments are reviewed at least once every 12 months (e.g. during the handover process or before the start of a new academic year).
 - b) Risk assessments for events other than regular club activities are submitted via the event registration process to be approved by the Sports Safety Officer. All details are submitted at least 21 days prior to the event, as per regulation 1.12(2) of the [University Regulations for the Activities and Conduct of Student Members](#), which is reiterated in the club's constitution.
 - c) Risk assessments for trips and tours (UK or abroad) other than regular club activities are submitted via the trip and tour registration process to be approved by the Sports Safety Officer. All details are submitted at least one calendar month prior to departure, as per regulation 4.2 of the [University Regulations for the Activities and Conduct of Student Members](#), which is reiterated in the club's constitution.
- 7) For risk assessment purposes, club activities include any activity organised by the club or its committee members for the benefit of the club's members, or any activities using the club's resources or name. Activities or events organised between members of the club are not included, providing the club and/or committee is not involved in organising the activities and the club does not provide its resources or name in the organising of the activities.

First Aid

- 10) All club activities are appropriately covered by qualified first aiders, unless the risk assessment for the activity explicitly states that first aid cover is not required.
- a) This cover comes in a variety of forms (such as qualified staff at host venues, qualified coaches leading activity, qualified club members within activity, emergency services or externally appointed first aiders) and will be specified in the risk assessment for each activity.
 - b) Should the agreed first aid provision not be available, the risks are reassessed using guidance from the National Governing Body and the Sports Safety Officer. If following re-assessment, the activity cannot go ahead safely, then the club will cancel that planned activity.

Accidents, Emergencies and Near Misses

- 11) All accidents, emergencies and near misses that take place during club activities are logged by the club and reported to the University via [the Health & Safety Incident Reporting Form](#), which is required by health and safety law, to ensure that the club is maintaining a duty of care to its members. All reported accidents, incidents and near-misses will be reviewed by the Sports Safety Officer.
- a) An 'accident' is defined as an unfortunate incident that happened unexpectedly and unintentionally resulting in injury to a person or persons and/or damage to property.
 - c) An 'incident' is used to encompass accidents, dangerous occurrences, specified occupational exposure, ill-health. All accidents, emergencies and near misses that take place during club activities are logged by the club and

reported to the University via [in the Health & Safety Incident Reporting Form](#), which is required by health and safety law, to ensure that the club is maintaining a duty of care to its members.

- d) A 'near-miss' relates to incidents that did not result in injury, illness, or damage, but that had the potential to do so. Recognising and reporting these incidents can provide opportunities to learn lessons that prevent future injury or damage. Club members and committees are actively encouraged to report near misses without fear of blame, to ensure safety is improved for any future or repeat issues.

Insurance *(this section is under development in association with OUSF, and may be subject to change.)*

12)

- a) All club activities are appropriately insured to ensure that the members, and the club itself, have an appropriate level of cover should an accident or incident occur.
- b) The club has public liability insurance, which is provided by British Caving Association and a copy of this insurance can be provided to members or third parties when needed.
- c) The club ensures that all paid external coaches and session leaders have appropriate professional liability cover in place and always maintains up to date records of those insurance details.

Training *(this section is under development in association with OUSF and may be subject to change.)*

- 13) Training in caving techniques and related matters within OUCC is normally peer-to-peer, without use of external paid instructors. This follows long-standing practice in British caving, and follows the guidelines of the National Governing Body, as detailed here: <https://british-caving.org.uk/bca-statement-on-peer-to-peer-training/> . Such peer-to-peer training may be in designated training sessions, or less formally by demonstration during the course of a caving trip. Such training will be given by "competent persons", as defined in the BCA statement: as someone having the appropriate combination of training, skills, experience and knowledge and the ability to apply them to perform a task safely.

Professional Training & Coaching *(this section is under development in association with OUSF and may be subject to change.)*

- 14) Use of paid trainers, coaches and instructors is not normal practice in British Club Caving; training in OUCC is normally as specified in §13) . Should OUCC engage any such instructors, the following procedures apply.
 - a) Any sports coaching that takes place within club activities is led by individuals with appropriate qualifications and insurance in place. Coaching is defined as the process of motivating, guiding, and providing technical advice or training to individual(s) or teams, relating to the sport or activity in question.
 - b) Coaching can come in a variety of forms. This requirement includes external contracted instructors or coaches (whether permanent or visiting) and volunteers, who all must have the correct qualifications and insurance in place.
 - c) Volunteer instructors or coaches can, in some circumstances, have insurance cover through the sports NGB without having a qualification, but any insurance in place must still be clarified and evidenced and the club will maintain up to date records of those insurance details.
- 15) All individuals that are 'coaching' within club activities are registered with the Sports Federation through the Club Coach Registration Form, as per regulation 1.12(1)(k) of the [University Regulations for the Activities and Conduct of Student Members](#).

- a) The club acknowledges that failure to register coaches through the Club Coach Registration Form, or failure to include any coach's qualifications or insurance, may expose club officers, the club and the University to damages arising out of negligent action by the coach, and as such will ensure all coaches are registered appropriately.

Events (*this section is under development in association with OUSF and may be subject to change.*)

- 16) All events organised by the club are planned, organised and risk assessed in a thorough manner.
 - a) 'Club events' are defined as any activities that take place on a specific date(s) or at a specific time(s) that are outside of the club's regular risk assessed activity, as specified in the "Overview of Activities" on page 1 of this document), which can include sporting and non-sporting activities. Further details can be found via the [Events](#) page of the Sports Federation Hub.
 - b) All such club events are submitted via the Event Registration Process, to be approved by the Sports Safety Officer. All details are submitted at least 21 days before the event is due to take place, as per regulation 1.12(2) of the [University Regulations for the Activities and Conduct of Student Members](#).
 - c) The club acknowledges that failure to register any event within the above deadline may mean that said event cannot be approved and therefore cannot take place.
- 17) Club social events and activities are also appropriately planned, organised and risk assessed, but in most cases will not be registered via the Event Registration Process, unless they are associated with or linked directly to a sporting event (e.g. an after-event dinner).
 - e) Club social activities are defined as any non-sporting activity organised by the club or its committee members for the benefit of the club's members, or any activities using the club's resources or name. Social activities or events organised between members of the club are not included, providing the club and/or committee are not involved in organising the activities and the club does not provide its resources or name in the organising of the activities.

Trips and Tours (*this section is under development in association with OUSF and may be subject to change.*)

- 18) All trips and tours organised by the club are planned, organised and risk assessed in a thorough manner.
 - b) 'Trips and Tours' are defined as any club activity that requires an overnight stay or any activity outside of Oxford for those sports deemed as 'higher risk' (which includes caving). Further details can be found via the [Trips and Tours](#) page on the Sports Federation Hub.
 - c) All club trips and tours are submitted via the Trips and Tours Registration Process to be approved by the Sports Safety Officer.
 - i. If not part of the club's regular activities as specified in the "Overview of Activities" on page 1 of this document), all details are submitted before the club makes any firm commitments, and at least one month before the trip or tour is due to take place, as per regulation 4.2 of the [University Regulations for the Activities and Conduct of Student Members](#).
 - ii. Trips and tours forming part of the club's regular activities are to be notified Trips and Tours Registration Process before departure, as soon as possible when details are finalised.
 - d) All club overseas trips will also follow all of Part 4 of the [University Regulations for the Activities and Conduct of Student Members](#), which includes individual permission requirements for each student (through the Sports Safety Officer and the Proctors) should the trip take place during Full Term or the Thursday and Friday preceding Full Term. The club is aware that permission for students to travel within these timescales is not guaranteed and the

club will make alternative arrangements if permission is not granted (e.g. change of dates) otherwise the trip or tour will be unable to take place.

- e) The club, the individuals and any club property travelling should not be uninsured during any part of a trip, as comprehensive travel insurance is a requirement for all participants travelling on a club's overseas trip.
- f) The club acknowledges that failure to register any trip or tour within the above deadline may mean that said trip or tour cannot be approved or take place, either at all or at least in the name of the University.

Safeguarding Children and Vulnerable Adults

- 19) Club activities that bring (or may bring) members into contact with children under 18, or anyone defined as a vulnerable adult, are separately risk assessed and approved by the Sports Safeguarding Officer.
 - g) Any concerns regarding safeguarding are to be addressed to the club committees and the club ensures that every club member knows how to escalate concerns to the committee.
 - h) Any concerns brought to the committee are shared with the Sports Safeguarding Officer (SSO), as early as possible, who may refer to the University Designated Leads for a decision and action if required. Concerns should not be reported to the club's NGB until the University Designated Leads has provided feedback to the Sports Safeguarding Officer.
 - i) Any risk assessments or concerns shared with the Sports Safeguarding Officer should be sent only via safety@sport.ox.ac.uk for confidentiality purposes.
