

Ogof y Dydd BYRAF Wednesday 3rd June

This visiting speaker meeting delayed by unavailability of John Hooper, finally made it.

Nick Schofield of the Wrexham Cave Group talked on the new cave "Ogof y dydd byraf" showing slides and an unedited black & white film which was interesting and amusing despite running somewhat slow.

The meeting was held in the Clarendon lecture theatre.

Attendance was possibly reduced by a last minute change of meeting place due to uncharitable refusal of BNC Lecture Room III

Reg Howard's slides were shown with those of Tim Cooke, Francis Sanders & Tim Cecil.

The meeting adjourned at 10.00pm to the Lamb & Flag

Two successful trips. Transport consisted of HIR's mini van, FES's Hillman & RAH's Ford Pop. The St Cuthbert's trip led as always by a BEC member succeeded in confusing everybody - and gave them a good wash in the entrance pitch. Eastwater was its usual knee wrecking paradise. The twin verticals were bottomed and a circular tour of the lower reaches followed.

13 foolhardy members were divided into two groups of five & eight. FES led the smaller to Coal celler almost losing HIR on the way - emerging after 7hrs.

RAH led the rest to Turkey Pool & back in 9hrs - the way slow time due to endless light trouble, - some difficulty in route finding & general incompetence.

Bitterly cold, snowy weather added some bite to the proceedings.

STOKE LANE (proposed)

• After various changes Hugh Ralph & Andrew Robertson went to Mardis ~~with~~ (John Forder being ill) but did not feel up to Stoke Lane.

They are reputed to have descended Rod's Pot & Goatchurch - but nevertheless feeling the day well spent

Francis Sanders, John Droke and Dick Hazelwood went to the Davies farm in S. Wales and divided their time between the pub and two half promising digs which did not yield to about 4hrs work
